We were thrilled that the Braves clinched the 2018 NL East division title and completed the sale of the residential portion of Battery Atlanta.”

Unless otherwise noted, the following discussion compares financial information for the three months ended September 30, 2018 to the same period in 2017.

LIBERTY SIRIUSXM GROUP – The following table provides the financial results attributed to Liberty SiriusXM Group for the third quarter of 2018. In the third quarter, approximately \$10 million of corporate level selling, general and administrative expense (including stock-based compensation expense) was allocated to the Liberty SiriusXM Group.

The increases in Liberty SiriusXM Group revenue, operating income and adjusted OIBDA⁽³⁾ were primarily driven by an increase in SiriusXM’s daily weighted average number of subscribers. Revenue growth at Liberty SiriusXM Group was partially offset by the impact of the adoption of a new revenue recognition accounting standard, as described in detail in Liberty Media’s Form 10-Q for the quarter ended September 30, 2018.

SiriusXM is a separate publicly traded company and additional information about SiriusXM can be obtained through its website and filings with the Securities and Exchange Commission. SiriusXM reported its stand-alone third quarter results on October 24, 2018. For additional detail on SiriusXM’s financial results for the third quarter, please see SiriusXM’s earnings release posted to their Investor Relations website. For presentation purposes on page one of this release, we include the results of SiriusXM, as reported by SiriusXM, without regard to the purchase accounting adjustments applied

by us for purposes of our financial statements. Liberty Media believes the presentation of financial results as reported by SiriusXM is useful to investors as the comparability of those results is best understood in the context of SiriusXM's historical financial presentation.

The businesses and assets attributed to Liberty SiriusXM Group consist primarily of Liberty Media's interest in SiriusXM.

FORMULA ONE GROUP – The following table provides the financial results attributed to the Formula One Group for the third quarter of 2018. In the third quarter, the Formula One Group incurred approximately \$6 million of corporate level selling, general and administrative expense (including stock-based compensation expense).

“Lewis Hamilton secured his 5th World Championship in Mexico City after a competitive 2018 season, and we expect continued action at our final two races in Brazil and Abu Dhabi,” said Chase Carey, Formula 1 Chairman and CEO. “Formula 1 hosted our first US-based fan festival in Miami and attracted an estimated 80,000 spectators for a live car run down Biscayne Boulevard, and excitement around the sport grows with the announcement that Hanoi will host a race from 2020. Our F1 New Balance Esports Pro Series got underway in October and has attracted over 13 million views on social media across all events this year.”

(1) Pro-forma adjusted OIBDA in the third quarter of 2017 excludes \$5 million of transaction expenses related to the F1 acquisition recognized during the quarter.

Primary F1 revenue is comprised of (i) race promotion fees, (ii) broadcasting fees and (iii) advertising and sponsorship fees. Results in the third quarter of 2018 were favorably impacted by the timing of the 2018 race calendar, with 2 additional races taking place in the third quarter of 2018 compared to the third quarter of 2017.

Race promotion revenue increased primarily due to the two additional races held in the third quarter of 2018, as well as contractual increases in race promotion fees. Broadcast revenue increased due to the higher proportionate recognition of season-based income during the quarter (8/21 races took place in the third quarter of 2018 compared to 6/20 races in the third quarter of 2017) as well as favorable foreign currency movements. Advertising and sponsorship revenue increased due to the two additional races in the third quarter of 2018 and revenue from new sponsorship agreements, partially offset by the impact of the adoption of the new revenue recognition accounting standard (ASC 606) on recognizing fees from F1's Global Partner and Official Supplier contracts. These fee elements were previously recognized pro-rata with the race calendar, but certain elements are now being recognized evenly over the calendar year and others over a smaller number of specific events. This change provided a modest headwind to reported advertising and sponsorship revenue in the third quarter of 2018 but will be neutral on a full calendar year basis.

Other F1 revenue increased in the third quarter primarily due to higher logistical and travel services revenue, higher digital media and TV production related revenue, increased revenue from various fan engagement activities and higher spare part sales for the F2 and GP3 support series.

Operating income and adjusted OIBDA⁽²⁾ increased in the third quarter as revenue growth driven by the additional races more than offset elevated costs. Cost of F1 revenue increased primarily due to higher team payments driven by the pro rata recognition of such payments across the race season, as well as increased costs associated with providing component parts to F2 and GP3 teams, fan engagement activities, freight, technical activities and digital media. Selling, general and administrative expense increased primarily as a result of increased marketing and research costs.

F1's total net debt to covenant OIBDA ratio, as defined in F1's credit facilities for covenant calculations, was approximately 6.5x as of September 30, 2018, as compared to a maximum allowable leverage ratio of 8.75x. The race calendar variances between 2017 and 2018 resulted in income from 22 races falling in the trailing twelve months measured for F1's covenant calculations as of September 30, 2018. Income from only 21 races will be captured in the trailing twelve months to be measured at year-end, and we expect the reported leverage ratio will increase accordingly.

The businesses and assets attributed to the Formula One Group consist of Liberty Media's subsidiary F1, its interest in Live Nation, minority equity investments and an intergroup interest in the Braves Group. There are approximately 9.1 million notional shares of the Braves Group underlying the Formula One Group's 15.1% intergroup interest as of October 31, 2018.

BRAVES GROUP - The following table provides the financial results attributed to the Braves Group for the third quarter of 2018. In the third quarter, approximately \$2 million of corporate level selling, general and administrative expense (including stock-based compensation expense) was allocated to the Braves Group.

Operating income (loss)	\$ (8)	\$ 46	675 %
Number of home game openings in period	41	41	
Baseball revenue per home game	\$ 4.4	\$ 4.6	

Baseball revenue is comprised of (i) ballpark operations, (ii) local and national broadcast rights and (iii) licensing and other shared MLB revenue streams. Development revenue is derived from the Battery Atlanta mixed-use facilities and primarily includes rental income.

Baseball revenue and baseball revenue per home game grew due to increased ticket prices, higher attendance and increased concessions per turnstile. Development revenue was modest in the third quarter of 2017 as the project was still ramping.

Operating income and adjusted OIBDA⁽²⁾ increased, primarily driven by higher revenue and reduced operating expense from lower player salaries due to the acceleration of player salary expense in previous quarters as a result of released and injured players.

The Formula One Group holds an approximate 15.1% intergroup interest in the Braves Group as of October 31, 2018. Assuming the issuance of the shares underlying the intergroup interest held by the Formula One Group, the Braves Group outstanding share count as of October 31, 2018 would have been 60 million.

The businesses and assets attributed to the Braves Group consist primarily of Liberty Media’s subsidiary the Braves, which indirectly owns the Atlanta Braves Major League Baseball Club, six minor league baseball clubs and certain assets and liabilities associated with the Braves’ ballpark and mixed-use development project.

Share Repurchases

From August 1, 2018 through October 31, 2018, Liberty Media repurchased approximately 2.9 million Series C Liberty SiriusXM shares (Nasdaq: LSSXMK) at an average cost per share of \$45.76 for total cash consideration of \$134.0 million. The total remaining repurchase authorization for Liberty Media is approximately \$882 million and can be applied to repurchases of Series A and Series C shares of any of the Liberty Media Corporation tracking stocks.

Total cash and liquid investments attributed to Liberty SiriusXM Group decreased \$48 million during the quarter. Cash from operations at SiriusXM and additional borrowings were more than offset by return of capital at both Liberty SiriusXM

Group and SiriusXM. Included in the cash and liquid investments balance attributed to Liberty SiriusXM Group at September 30, 2018 is \$46 million held at SiriusXM. Although SiriusXM is a consolidated subsidiary, it is a separate public company with a significant non-controlling interest, therefore Liberty Media does not have ready access to SiriusXM's cash balances.

Total debt attributed to Liberty SiriusXM Group increased \$217 million during the quarter primarily due to increased borrowings under SiriusXM's revolving credit facility and Liberty SiriusXM's margin loan.

Total cash and liquid investments attributed to the Formula One Group decreased \$47 million during the quarter, primarily as a result of F1's repayment of \$75 million under its revolving credit facility, which was partially offset by cash from operations. As a result of the repayment, total debt attributed to Formula One Group decreased \$76 million during the quarter.

Total cash and liquid investments attributed to the Braves Group decreased \$35 million during the quarter as increased cash from operations was more than offset by timing of working capital needs. Total debt attributed to the Braves Group was flat in the third quarter.

NON-GAAP FINANCIAL MEASURES

SCHEDULE 1

This press release includes a presentation of adjusted OIBDA, which is a non-GAAP financial measure, for the Liberty SiriusXM Group, the Braves Group and the Formula One Group, together with reconciliations to operating income, as determined under GAAP. Liberty Media defines adjusted OIBDA as revenue less operating expenses, and selling, general and administrative expenses, excluding all stock based compensation, and excludes from that definition depreciation and amortization, restructuring and impairment charges and separately reported legal settlements that are included in the measurement of operating income pursuant to GAAP.

Liberty Media believes adjusted OIBDA is an important indicator of the operational strength and performance of its businesses, including each business' ability to service debt and fund capital expenditures. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. Because adjusted OIBDA is used as a measure of operating performance, Liberty Media views operating income as the most directly comparable GAAP measure. Adjusted OIBDA is not meant to replace or supersede operating income or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with the same information that Liberty Media's management considers in assessing the results of operations and performance of its assets.

The following table provides a reconciliation of adjusted OIBDA for Liberty Media to operating income calculated in accordance with GAAP for the three months ended September 30, 2017 and September 30, 2018, respectively.

SCHEDULE 2

This press release also includes a presentation of adjusted EBITDA and adjusted EBITDA margin of SiriusXM, which are non-GAAP financial measures used by SiriusXM, together with a reconciliation to SiriusXM's stand-alone net income, as determined under GAAP. SiriusXM defines adjusted EBITDA as follows: EBITDA is defined as net income before interest expense, income tax expense and depreciation and amortization. SiriusXM adjusts EBITDA to exclude the impact of other income as well as certain other charges discussed below. Adjusted EBITDA is a Non-GAAP financial measure that excludes (if applicable): (i) certain adjustments as a result of the purchase price accounting for the merger of Sirius and XM, (ii) share-based payment expense and (iii) other significant operating expense (income) that do not relate to the on-going performance of SiriusXM's business. SiriusXM believes adjusted EBITDA is a useful measure of the underlying trend of its operating performance, which provides useful information about its business apart from the costs associated with its capital structure and purchase price accounting. SiriusXM believes investors find this Non-GAAP financial measure useful when analyzing past operating performance with current performance and comparing its operating performance to the performance of other communications, entertainment and media companies. SiriusXM believes investors use adjusted EBITDA to estimate its current enterprise value and to make investment decisions. As a result of large capital investments in SiriusXM's satellite radio system, its results of operations reflect significant charges for depreciation expense. SiriusXM believes the exclusion of share-based payment expense is useful as it is not directly related to the operational conditions of its business. SiriusXM also believes the exclusion of the legal settlements and reserves related to the historical use of sound recordings, acquisition related costs, loss on extinguishment of debt and loss on disposal of assets, to the extent they occur during the period, is useful as they are significant expenses not incurred as part of normal operations for the period. Adjusted EBITDA margin is defined as adjusted EBITDA divided by revenue.

Adjusted EBITDA has certain limitations in that it does not take into account the impact to SiriusXM's statements of comprehensive income of certain expenses, including share-based payment expense and certain purchase price accounting for the merger of Sirius and XM. SiriusXM endeavors to compensate for the limitations of the Non-GAAP measure presented by also providing the comparable GAAP measure with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the Non-GAAP measure. Investors that wish to compare and evaluate operating results after giving effect for these costs, should refer to net income as disclosed in SiriusXM's unaudited consolidated statements of comprehensive income. Since adjusted EBITDA is a Non-GAAP financial performance measure, SiriusXM's calculation of adjusted EBITDA may be susceptible to varying calculations; may not be comparable to other similarly titled measures of other companies; and should not be considered in isolation, as a substitute for, or superior to measures of financial performance prepared in accordance with GAAP. The reconciliation of net income to the adjusted EBITDA is calculated as follows:
